

Welcome to World Geography

In this course we embark on a journey that will take us around the world in 180 days! Most of the time, I will be your guide but occasionally you will have an opportunity to be the guide! We will examine the history, technologies, cultures and economies of the different countries and regions so that we may have a deeper understanding of the world outside of New Hampshire and the United States!

Materials needed: Notebook, folder, colored pencils and blue or black pen.

Our assignments will be posted on the board and in our Google Classroom. You will note the codes on the board.

Everything will be assessed: classwork, homework, projects, quizzes and tests. You will always be given a “grace” day if you fail to bring in your homework or project but after that, homework will not be credited and projects will go down a grade for each day late. You will often hear me say, “Don’t do the crime if you can’t do the time.” And “Accept the consequences of your actions, learn from them and move on.” If you need help, speak up! While I have many hidden talents, reading young people’s minds is, sadly, not one of them!

Remember: In this classroom We:

~Honor God, our parents, our teachers, our classmates and ourselves in word and deed.

~THINK before we speak - Is it True? Is it Helpful? Is it Inspiring? Is it Necessary? Is it Kind?

~Raise our hand and WAIT to be called on to speak.

~Come to class prepared. Notebook, folder, colored pencils and blue or black pen.

~Own our mistakes. If my work isn’t done, I will work to get it done!
